THE OPPORTUNITY

THE MARKET

The Northeast has a concentrated institutional beverage market, with hospitals, universities, and corporate campuses reassessing suppliers. Tightening ESG requirements emphasize the need for supplier diversity. Procurement teams are looking for partners that offer operational reliability and measurable impact.

THE SITUATION

BLK & Bold is positioned to meet this demand.
The brand has national credibility.
The mission aligns with institutional priorities.
The infrastructure is already in motion.

What is needed now is strategic positioning and targeted expansion.

THE GAP

BLK & Bold has earned strong retail distribution and brand recognition. How do we translate that credibility into enterprise perception?

Institutional buyers assess risk carefully. They prioritize consistency. They require documentation, scalability, and long-term reliability.

The capability exists.
The perception does not.
This strategy closes that gap.

Institutions are under pressure to align purchasing decisions with values. They must demonstrate impact. They must diversify suppliers. They must meet sustainability benchmarks while maintaining cost efficiency.

Blk & Bold is differentiation that **matters**.

Strength 2

BLK & Bold offers measurable community investment through its foundation. It offers national distribution credibility. It offers authentic mission alignment. Few specialty coffee brands can combine all three at scale.

Blk & Bold offers growth with **quality** and **integrity**.

THE IMPACT

Average Annual Coffee Contract Value (conservative estimates):
University: $350,000/year
Hospital system: $400,000/year
Corporate HQ: $250,000/year

Anchor Account Types:

- 2 Universities
- 2 Hospital Systems
- 1 Corporate HQ Campus

Total Year 1 Anchor Revenue:
(2 × 350K) + (2 × 400K) + (1 × 250K)
